## Section 1 An introduction to MySQL

### Chapter 1 An introduction to relational databases and SQL

<b>An introduction to client/server systems .....</b>	<b>4</b>
The hardware components of a client/server system .....	4
The software components of a client/server system .....	6
Other client/server architectures .....	8
<b>An introduction to the relational database model .....</b>	<b>10</b>
How a table is organized .....	10
How tables are related .....	12
How columns are defined .....	14
How to read a database diagram .....	16
<b>An introduction to SQL and SQL-based systems .....</b>	<b>18</b>
A brief history of SQL .....	18
A comparison of Oracle, DB2, Microsoft SQL Server, and MySQL .....	20
<b>The SQL statements .....</b>	<b>22</b>
An introduction to the SQL statements .....	22
How to work with database objects .....	24
How to query a single table .....	26
How to join data from two or more tables .....	28
How to add, update, and delete data in a table .....	30
SQL coding guidelines .....	32
<b>How to use SQL from an application program .....</b>	<b>34</b>
Common options for accessing MySQL data .....	34
PHP code that retrieves data from MySQL .....	36
Java code that retrieves data from MySQL .....	38
<b>Perspective .....</b>	<b>40</b>

### Chapter 2 How to use MySQL Workbench and other development tools

<b>An introduction to MySQL Workbench .....</b>	<b>42</b>
The Home tab of MySQL Workbench .....	42
How to start and stop the database server .....	44
<b>How to use MySQL Workbench to work with a database .....</b>	<b>46</b>
How to open a database connection .....	46
How to navigate through the database objects .....	48
How to view and edit the data for a table .....	50
How to view and edit the column definitions for a table .....	52
<b>How to use MySQL Workbench to run SQL statements .....</b>	<b>54</b>
How to enter and execute a SQL statement .....	54
How to use the Snippets tab .....	56
How to handle syntax errors .....	58
How to open and save SQL scripts .....	60
How to enter and execute SQL scripts .....	62
<b>How to use the MySQL Reference Manual .....</b>	<b>64</b>
How to view the manual .....	64
How to look up information .....	64

<b>How to use the the MySQL monitor .....</b>	<b>66</b>
How to start and stop the MySQL monitor .....	66
How to use the MySQL monitor to work with a database .....	68
<b>Perspective .....</b>	<b>70</b>

## **Section 2 The essential SQL skills**

### **Chapter 3 How to retrieve data from a single table**

<b>An introduction to the SELECT statement .....</b>	<b>76</b>
The basic syntax of the SELECT statement .....	76
SELECT statement examples .....	78
<b>How to code the SELECT clause .....</b>	<b>80</b>
How to code column specifications .....	80
How to name the columns in a result set using aliases .....	82
How to code arithmetic expressions .....	84
How to use the CONCAT function to join strings .....	86
How to use functions with strings, dates, and numbers .....	88
How to test expressions by coding statements without FROM clauses .....	90
How to eliminate duplicate rows .....	92
<b>How to code the WHERE clause .....</b>	<b>94</b>
How to use the comparison operators .....	94
How to use the AND, OR, and NOT logical operators .....	96
How to use the IN operator .....	98
How to use the BETWEEN operator .....	100
How to use the LIKE and REGEXP operators .....	102
How to use the IS NULL clause .....	104
<b>How to code the ORDER BY clause .....</b>	<b>106</b>
How to sort by a column name .....	106
How to sort by an alias, expression, or column number .....	108
<b>How to code the LIMIT clause .....</b>	<b>110</b>
How to limit the number of rows .....	110
How to return a range of rows .....	110
<b>Perspective .....</b>	<b>112</b>

### **Chapter 4 How to retrieve data from two or more tables**

<b>How to work with inner joins .....</b>	<b>116</b>
How to code an inner join .....	116
How to use table aliases .....	118
How to join to a table in another database .....	120
How to use compound join conditions .....	122
How to use a self-join .....	124
How to join more than two tables .....	126
How to use the implicit inner join syntax .....	128
<b>How to work with outer joins .....</b>	<b>130</b>
How to code an outer join .....	130
Outer join examples .....	132
<b>Other skills for working with joins .....</b>	<b>136</b>
How to join tables with the USING keyword .....	136
How to join tables with the NATURAL keyword .....	138
How to use cross joins .....	140

	<b>How to work with unions .....</b>	<b>142</b>
	How to code a union .....	142
	A union that combines results sets from different tables .....	142
	A union that combines result sets from the same tables .....	144
	A union that simulates a full outer join .....	146
	<b>Perspective .....</b>	<b>148</b>
<b>Chapter 5</b>	<b>How to code summary queries</b>	
	<b>How to work with aggregate functions .....</b>	<b>152</b>
	How to code aggregate functions .....	152
	Queries that use aggregate functions .....	154
	<b>How to group and summarize data .....</b>	<b>156</b>
	How to code the GROUP BY and HAVING clauses .....	156
	Queries that use the GROUP BY and HAVING clauses .....	158
	How the HAVING clause compares to the WHERE clause .....	160
	How to code compound search conditions .....	162
	How to use the WITH ROLLUP operator .....	164
	<b>Perspective .....</b>	<b>166</b>
<b>Chapter 6</b>	<b>How to code subqueries</b>	
	<b>An introduction to subqueries .....</b>	<b>170</b>
	Where to code subqueries .....	170
	When to use subqueries .....	172
	<b>How to code subqueries in the WHERE clause .....</b>	<b>174</b>
	How to use the IN operator .....	174
	How to use the comparison operators .....	176
	How to use the ALL keyword .....	178
	How to use the ANY and SOME keywords .....	180
	How to code correlated subqueries .....	182
	How to use the EXISTS operator .....	184
	<b>How to code subqueries in other clauses .....</b>	<b>186</b>
	How to code subqueries in the HAVING clause .....	186
	How to code subqueries in the SELECT clause .....	186
	How to code subqueries in the FROM clause .....	188
	<b>How to work with complex queries .....</b>	<b>190</b>
	A complex query that uses three subqueries .....	190
	A procedure for building complex queries .....	192
	<b>Perspective .....</b>	<b>194</b>
<b>Chapter 7</b>	<b>How to insert, update, and delete data</b>	
	<b>How to create test tables .....</b>	<b>198</b>
	How to create the tables for this book .....	198
	How to create a copy of a table .....	198
	<b>How to insert new rows .....</b>	<b>200</b>
	How to insert a single row .....	200
	How to insert multiple rows .....	200
	How to insert default values and null values .....	202
	How to use a subquery in an INSERT statement .....	204
	<b>How to update existing rows .....</b>	<b>206</b>
	How to update rows .....	206
	How to use a subquery in an UPDATE statement .....	208

	<b>How to delete existing rows .....</b>	<b>210</b>
	How to delete rows .....	210
	How to use a subquery in a DELETE statement .....	210
	<b>Perspective .....</b>	<b>212</b>
<b>Chapter 8</b>	<b>How to work with data types</b>	
	<b>The data types .....</b>	<b>216</b>
	Overview .....	216
	The character types .....	218
	The integer types .....	220
	The fixed-point and floating-point types .....	222
	The date and time types .....	224
	The ENUM and SET types .....	228
	The large object types .....	230
	<b>How to convert data .....</b>	<b>232</b>
	How implicit data conversion works .....	232
	How to convert data using the CAST and CONVERT functions .....	234
	How to convert data using the FORMAT and CHAR functions .....	236
	<b>Perspective .....</b>	<b>238</b>
<b>Chapter 9</b>	<b>How to use functions</b>	
	<b>How to work with string data .....</b>	<b>242</b>
	A summary of the string functions .....	242
	Examples that use string functions .....	244
	How to sort by a string column that contains numbers .....	246
	How to parse a string .....	248
	<b>How to work with numeric data .....</b>	<b>250</b>
	How to use the numeric functions .....	250
	How to search for floating-point numbers .....	252
	<b>How to work with date/time data .....</b>	<b>254</b>
	How to get the current date and time .....	254
	How to parse dates and times with date/time functions .....	256
	How to parse dates and times with the EXTRACT function .....	258
	How to format dates and times .....	260
	How to perform calculations on dates and times .....	262
	How to search for a date .....	264
	How to search for a time .....	266
	<b>Other functions you should know about .....</b>	<b>268</b>
	How to use the CASE function .....	268
	How to use the IF, IFNULL, and COALESCE functions .....	270
	<b>Perspective .....</b>	<b>272</b>
<b>Section 3 Database design and implementation</b>		
<b>Chapter 10</b>	<b>How to design a database</b>	
	<b>How to design a data structure .....</b>	<b>278</b>
	The basic steps for designing a data structure .....	278
	How to identify the data elements .....	280
	How to subdivide the data elements .....	282
	How to identify the tables and assign columns .....	284
	How to identify the primary and foreign keys .....	286

How to enforce the relationships between tables .....	288
How normalization works .....	290
How to identify the columns to be indexed .....	292
<b>How to normalize a data structure .....</b>	<b>294</b>
The seven normal forms .....	294
How to apply the first normal form .....	296
How to apply the second normal form .....	298
How to apply the third normal form .....	300
When and how to denormalize a data structure .....	302
<b>How to use MySQL Workbench for database design .....</b>	<b>304</b>
How to open an existing EER model .....	304
How to create a new EER model .....	304
How to work with an EER model .....	306
How to work with an EER diagram .....	308
<b>Perspective .....</b>	<b>310</b>
<b>Chapter 11 How to create databases, tables, and indexes</b>	
<b>How to work with databases .....</b>	<b>314</b>
How to create and drop a database .....	314
How to select a database .....	314
<b>How to work with tables .....</b>	<b>316</b>
How to create a table .....	316
How to code a primary key constraint .....	318
How to code a foreign key constraint .....	320
How to alter the columns of a table .....	322
How to alter the constraints of a table .....	324
How to rename, truncate, and drop a table .....	326
<b>How to work with indexes .....</b>	<b>328</b>
How to create an index .....	328
How to drop an index .....	328
<b>A script that creates a database .....</b>	<b>330</b>
<b>How to use MySQL Workbench .....</b>	<b>334</b>
How to work with the columns of a table .....	334
How to work with the indexes of a table .....	336
How to work with the foreign keys of a table .....	338
<b>How to work with character sets and collations .....</b>	<b>340</b>
An introduction to character sets and collations .....	340
How to view character sets and collations .....	342
How to specify a character set and a collation .....	344
<b>How to work with storage engines .....</b>	<b>346</b>
An introduction to storage engines .....	346
How to view storage engines .....	346
How to specify a storage engine .....	348
<b>Perspective .....</b>	<b>350</b>
<b>Chapter 12 How to create views</b>	
<b>An introduction to views .....</b>	<b>354</b>
How views work .....	354
Benefits of using views .....	356

<b>How to work with views .....</b>	<b>358</b>
How to create a view .....	358
How to create an updatable view .....	362
How to use the WITH CHECK OPTION clause .....	364
How to insert or delete rows through a view .....	366
How to alter or drop a view .....	368
<b>Perspective .....</b>	<b>370</b>

## **Section 4 Stored program development**

### **Chapter 13 Language skills for writing stored programs**

<b>An introduction to stored programs .....</b>	<b>374</b>
Four types of stored programs .....	374
A script that creates and calls a stored procedure .....	374
A summary of statements for coding stored programs .....	376
<b>How to write procedural code .....</b>	<b>378</b>
How to display data .....	378
How to declare and set variables .....	380
How to code IF statements .....	382
How to code CASE statements .....	384
How to code loops .....	386
How to use a cursor .....	388
How to declare a condition handler .....	390
How to use a condition handler .....	392
How to use multiple condition handlers .....	396
<b>Perspective .....</b>	<b>398</b>

### **Chapter 14 How to use transactions and locking**

<b>How to work with transactions .....</b>	<b>402</b>
How to commit and rollback transactions .....	402
How to work with save points .....	404
<b>How to work with concurrency and locking .....</b>	<b>406</b>
How concurrency and locking are related .....	406
The four concurrency problems that locks can prevent .....	408
How to set the transaction isolation level .....	410
How to prevent deadlocks .....	412
<b>Perspective .....</b>	<b>414</b>

### **Chapter 15 How to create stored procedures and functions**

<b>How to code stored procedures .....</b>	<b>416</b>
How to create and call a stored procedure .....	416
How to code input and output parameters .....	418
How to set a default value for a parameter .....	420
How to validate parameters and raise errors .....	422
A stored procedure that inserts a row .....	424
How to work with user variables .....	428
How to work with dynamic SQL .....	430
How to drop a stored procedure .....	432
<b>How to code stored functions .....</b>	<b>434</b>
How to create and call a function .....	434
A function that calculates balance due .....	436
How to drop a function .....	438

<b>How to use MySQL Workbench with stored routines .....</b>	<b>440</b>
How to view stored routines .....	440
How to create stored routines .....	440
How to drop stored routines .....	440
<b>Perspective .....</b>	<b>442</b>
<b>Chapter 16 How to create triggers and events</b>	
<b>How to work with triggers .....</b>	<b>446</b>
How to create a BEFORE trigger .....	446
How to use a trigger to enforce data consistency .....	448
How to create an AFTER trigger .....	450
How to view or drop triggers .....	452
<b>How to work with events .....</b>	<b>454</b>
How to turn on the event scheduler .....	454
How to create an event .....	454
How to view, alter, or drop events .....	456
<b>Perspective .....</b>	<b>458</b>
<b>Section 4 Database administration</b>	
<b>Chapter 17 An introduction to database administration</b>	
<b>Database administration concepts .....</b>	<b>462</b>
Database administrator responsibilities .....	462
Types of database files .....	464
Types of log files .....	464
<b>How to monitor the server .....</b>	<b>466</b>
How to view and kill processes .....	466
How to view the status variables .....	468
How to view the system variables .....	470
<b>How to configure the server .....</b>	<b>472</b>
How to set system variables using MySQL Workbench .....	472
How to set system variables using a text editor .....	474
How to set system variables using the SET statement .....	476
<b>How to work with logging .....</b>	<b>478</b>
How to enable and disable logging .....	478
How to configure logging .....	480
How to view text-based logs .....	482
How to view the binary log .....	484
How to manage logs .....	486
<b>Perspective .....</b>	<b>488</b>
<b>Chapter 18 How to secure a database</b>	
<b>An introduction to user accounts .....</b>	<b>492</b>
An introduction to SQL statements for user accounts .....	492
A summary of privileges .....	494
The four privilege levels .....	498
The grant tables in the mysql database .....	498
<b>How to work with users and privileges .....</b>	<b>500</b>
How to create, rename, and drop users .....	500
How to specify user account names .....	502
