Level 6 Skills Checks 2 – Term 1 (2019-2020)

Grade 10 Advanced

Student Name: \_\_\_\_\_

Class: \_\_\_\_\_

Date: \_\_\_\_\_

Listening Skills Check 2 (Level 6)

Listening to the recording and answer the questions.

You have 1 minute to look at the questions. You will hear the recording twice.

Listen and identify the main points

Q1.	Main Point 1 <u><b>E</b></u>	A. Cars are not allowed in Masdar City. B. Both modern and traditional designs are used. C. Education will help future planning. D. The city produces little waste E. Masdar City was planned to be good for the environment.
Q2.	Main Point 2 <u><b>D</b></u>	
Q3.	Main Point 3 <u><b>B</b></u>	
Q4.	Main Point 4 <u><b>A</b></u>	
Q5.	Main Point 5 <u><b>C</b></u>	

Reading Skills Check 2 (Level 6)

Paragraph 1

Hydroponics is a modern farming technique which is useful in areas where there is little, or no soil, or where water is scarce. Omar Abdullah, who manages a hydroponic farm explains: 'As they are not grown in soil, the crops need food from other sources, so they are grown in tanks or trays of nutrient-rich liquid. This is made by dissolving essential minerals, such as nitrogen, in water.' This technique uses a lot less water than traditional outdoor farming, as the water doesn't drain away into the ground. This is particularly important in dry areas, such as Al Ain, where Mr Abdullah's farm is located.

Paragraph 2

'Aquaponics combines fish farming with hydroponics,' explains Nasser Saif, a businessman, who opened his aquaponics farm many years ago. 'First of all, fish are kept in tanks and fed fish food,' he says. 'The fish produce waste which could be toxic to them, so this is pumped out into other tanks where plants are being grown hydroponically. The plants take up the nutrient-rich waste water through their roots and cleanse it naturally, so that finally it can be pumped back into the fish tank and the cycle starts all over again.'

Read and identify the main points

Q1.	Paragraph 1 <b>C</b>	A. Growing fish and vegetables B. Cheap food production C. Water efficient farming
Q2.	Paragraph 2 <b>A</b>	

Read and understand details

Q3.	Omar Abdullah is a manager on a modern farm.	<b>True</b>	False	Not given
Q4.	Mr Abdullah lives in Al Ain.	True	False	<b>Not given</b>
Q5.	Nasser Saif's aquaponics farm is very new.	True	<b>False</b>	Not given
